REC_DS using C_Week 2_COD_Question 4

Attempt : 1 Total Mark : 10 Marks Obtained : 10

Section 1: Coding

1. Problem Statement

Ravi is developing a student registration system for a college. To efficiently store and manage the student IDs, he decides to implement a doubly linked list where each node represents a student's ID.

In this system, each student's ID is stored sequentially, and the system needs to display all registered student IDs in the order they were entered.

Implement a program that creates a doubly linked list, inserts student IDs, and displays them in the same order.

Input Format

The first line contains an integer N the number of student IDs.

The second line contains N space-separated integers representing the student IDs.

Output Format

The output should display the single line containing N space-separated integers representing the student IDs stored in the doubly linked list.

Refer to the sample output for formatting specifications.

```
Sample Test Case
```

```
Input: 5
   10 20 30 40 50
Output: 10 20 30 40 50
   Answer
   // You are using GCC
   #include<stdio.h>
   #include<stdlib.h>
   struct node{
     int data;
     struct node*prev;
     struct node*next;
   };
   struct node*cr(int data){
    struct node*newnode=(struct node*)malloc(sizeof(struct node));
     newnode->data=data;
     newnode->prev=NULL;
     newnode->next=NULL;
     return newnode:
   void in(struct node**head,int data){
     struct node*newnode=cr(data);
     if(*head==NULL){
        *head=newnode:
     else{
        struct node*temp=*head;
        while(temp->next!=NULL){
```

```
240701173
                                              240701173
      temp=temp->next;
    temp->next=newnode;
    newnode->prev=temp;
}
void print(struct node*head){
  struct node*temp;
  temp=head;
  while(temp!=NULL){
    printf("%d",temp->data);
    temp=temp->next;
  }
int main(){
  int n,data;
  scanf("%d",&n);
  struct node*head=NULL;
  for(int i=0;i<n;i++){
    scanf("%d",&data);
    in(&head,data);
  }
  print(head);
}
Status: Correct
                                                                 Marks: 10/10
```
